To whom it may concern:

Kevin York began instructing for the Puget Sound Region BMW club (then ACA) approximately ten years ago. His dedication to the sport and our club principles has contributed to the development and growth of our high performance driving program. Kevin has shown a desire for continual learning by attending several professional driving schools, his racing endeavors and by teaching for Inland Empire BMW CCA, International Race Drivers Club and as a staff instructor for Proformance Racing School. From these activities, he has brought a structured approach to his instruction of students at all levels of proficiency and has led to his appointment as one of fifteen senior instructors within our club. He has always looked at instructing as a skill needing practice in order to perfect. His enthusiasm, professionalism and teaching style has made him a perennial favorite of the students he works with, from the novice to the advanced racer wannabe. I have always looked to Kevin for support, insight and honest feedback on our program and I know he has the skills to appropriately handle most any situation/student he is faced with. Without reservation, I can recommend Kevin as a high performance driving instructor.

Walt Conley
Chief Driving Instructor,
BMW CCA Puget Sound Region
