RE: KEVIN YORK

Dear Sir or Madam,

This brief note provides me the opportunity to recommend Kevin York to you. Although Kevin drove with our team but once, he's become a good friend despite the fact he and I live on opposite sides of the continent. Kevin is just that kind of guy.

His enthusiasm is infectious, and his positive attitude most welcome. When he drove with us, he almost instantly became an integral part of the team, connecting with everyone from his co-driver (me) to the Crew Chief and boy Fridays. His extensive experience as a driver coach is evident in his patient, analytical approach, both behind the wheel and in the paddock.

All of which says volumes about Kevin's character but little about how he is as a driver. Yet this is where he excels. Not only has he proven the can hustle a car around the circuit with the quickest of us, his feedback is precise and measured, allowing our engineer to improve the car, each and every session. During the event he drove with us, Kevin never put a wheel wrong, and his efforts netted us one of our best results of the season.

Should you consider adding Kevin to your team, I know that you'll notice positive results both on and off the track.

If you'd like to speak in person, please feel free to call during the day at (416) 465-2299 x21 to chat.

Sincerely,

KARL THOMSON / TEAM OWNER
